

Canada Dental Benefit

Factsheet

Tooth decay is the most common, but preventable, childhood chronic disease both in Canada and around the world. Oral diseases frequently begin in the preschool years which is why it is so important to establish good oral hygiene behaviours as soon as possible.

The Government of Canada has implemented the **Canada Dental Benefit**, which is designed to provide some financial support to help Canadian families access dental care. With this benefit, families can start addressing some of the basic dental care that their young children need while the Government continues its work to develop a long-term Canadian dental care program.

WHAT is the benefit?

The Canada Dental Benefit provides **up to \$650** per eligible child under 12 years of age. You can apply for a **maximum of 2 payments** per child.

\$650

\$390

if the family's adjusted net income is **between \$70,000 and \$79,999**
